The disease of Parkinson

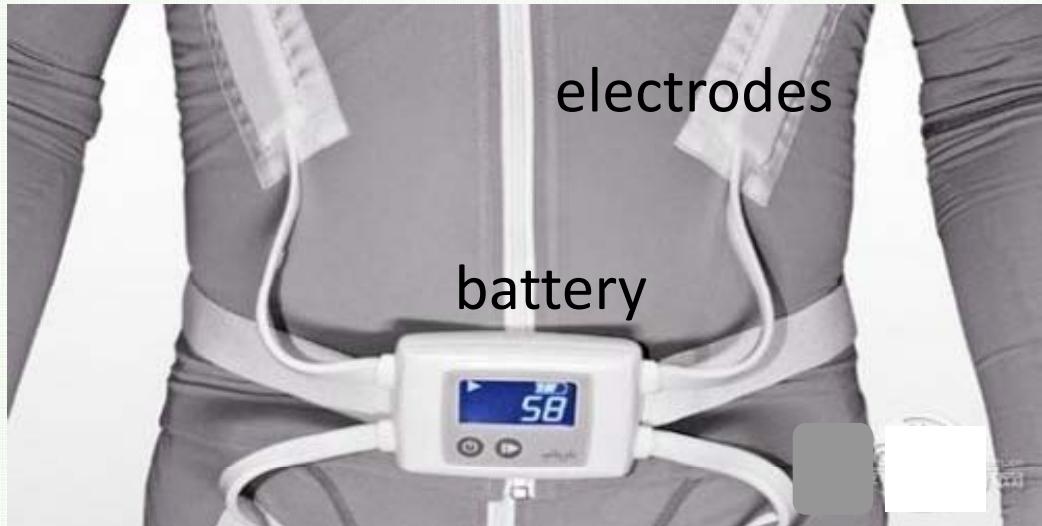

**6.3 million people
worldwide living with
incurable weakness,
tremor and rigidity**

tics/
motor fluctuations

wearable technology
use what can they do?

electrotherapy
At home, No side effects

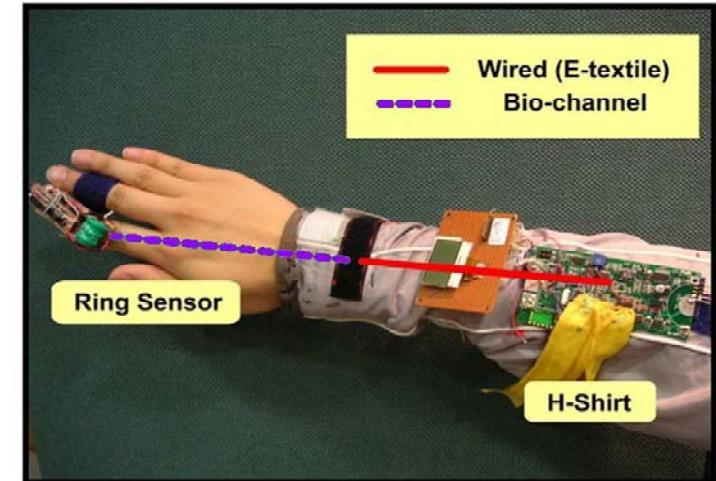

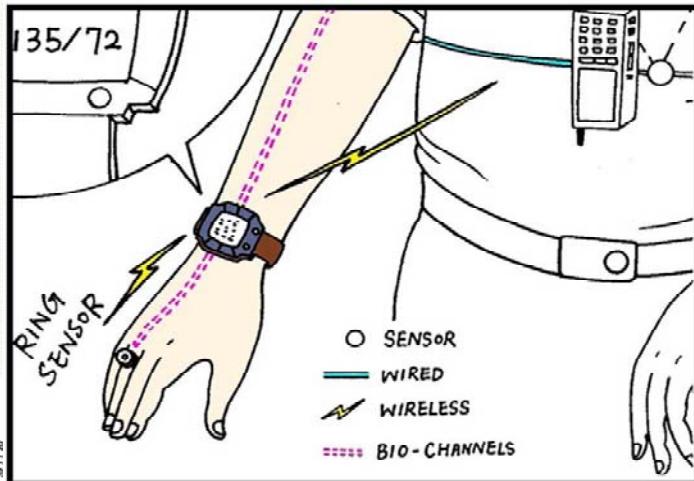

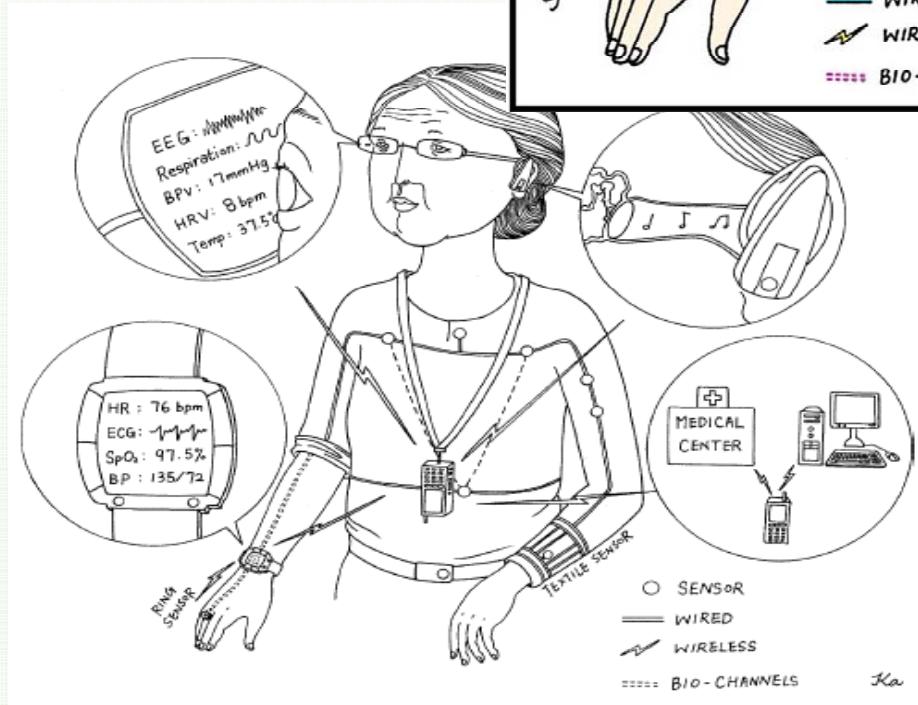

Control the muscle
fight against tics

Mollii garment (invented by Fredrik Lundqvist)

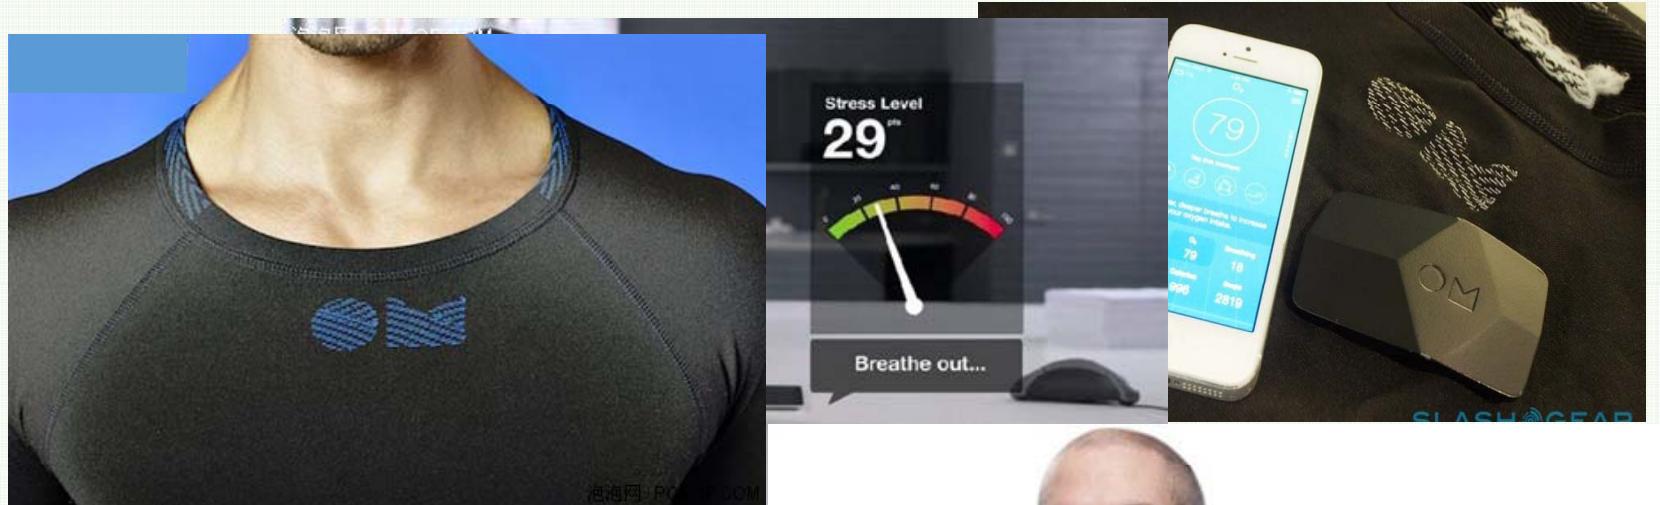

**Do you dare to pick the elderly
up who fell down in the street?**

Equipped with sensors:
accelerometer
magnetometer
gyroscope
pressure sensor

Calculate oxygen index Track breathing rate
